THE MODULUS
1 9 2 7

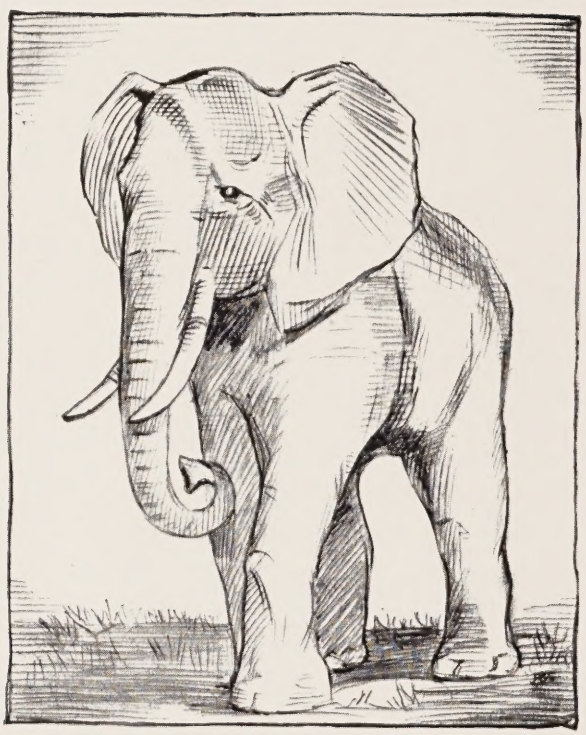
Published Annually by the Students of Rose Polytechnic Institute, Terre Haute, Indiana

VOLUME XIV



Dedication

TO Rosie, the white elephant mascot of old Rose, that embodiment of the old Rose spirit, which, like the fabled Pheonix, rises anew from its ashes, we dedicate this book, the Modulus of 1927.

Foreword

Webster: "Modulus—a small measure."

IF this, the Modulus of the year 1927, shows to any small extent the progress of the new Rose. . . .
If it mirrors to any small degree the spirit of the old Rose . . . . . .
If it is a faithful record of an eventful year . . . . . .
Then our work has not been in vain.

ARCHITECTURAL ENGINEERING

CAMPUS SCENES

WHO has not wandered at noon over the broad Rose campus? He who has never idled in the shade beside the lake to watch a vagrant heron or loon fish for his mid-day meal—who has never followed the winding creek with its profusion of spring wild-flowers along its banks, has failed to appreciate the beauties which lie at his very door.

****

(1) *The main entrance to the school, guarded by The Oak, which has stood its watch for more than a hundred years.*

(2) *Where Lost Creek flows, down to the Wabash, beneath its canopy of trees.*

(3) *The giant Tulip-trees, a remnant of the primeval forest.*

(4) *Catalpa trees beside the path on the dam.*

(5) *A study in sunlight and shade, over by the lake.*

(6) *Down the dusty road and across the wooden bridge in the noon-day sun.*

MAIN BUILDING, FRONT END

Rose Polytechnic Institute

ROSE Polytechnic Institute has undergone a great external change since the school was founded fifty-three years ago by Chauncy Rose. However, the high scholastic standards originally set by the Institute have not varied, and Rose still holds, and will continue to hold, its high place in the field of engineering.

As it was originally planned, the school was to have been named the "Terre Haute School of Industrial Science," but at the laying of the corner-stone of the main building, the name was changed to "Rose Polytechnic Institute."

The original campus is located on North Thirteenth Street in the city, and here the "Old School" flourished for forty-nine years. In 1913 it was definitely decided to move the school to a site which would allow sufficient room for expansion. The present expansive campus was at that time placed at the disposal of the Institute by Herman Hulman. The main building was completed in 1923. The "Old

DEMING HALL

School" was taken over by the city and now houses the Gerstmeyer Technical High School.

In the unavoidable confusion in making the change from the old, established, school to the new, and at that time, incomplete quarters, the Old Rose Spirit waned to some extent. This condition is being steadily improved, however, and there has been a noticeable improvement in the last two years.

For the convenience of out-of-town students, the new memorial dormitory, Deming Hall, was begun last summer and completed last fall. This is the second building to be built of the group shown on the original plans of the campus. The appearance of the campus has been improved greatly in the past year, not only by the addition of the new building, but by the landscaping which has been going on steadily.

Having become established at its new location, Rose is due for a new period of development and prosperity.

Dr. Frank Caspar Wagner, President

FRANK Caspar Wagner was born at Ann Arbor, Michigan, October 5, 1864. After completing his early education in the public schools at Ann Arbor, he entered the University of Michigan, from which he graduated in 1884 with the Master of Arts degree. A course in mechanical engineering occupied his attention during the following year, and in 1885 he received the degree of Bachelor of Science from the same school.

Professional engineering called to Mr. Wagner upon his graduation and he entered the employ of the Thomson-Houston Electric Company, in 1886, where he held a responsible position. During his last two years with the company, Mr. Wagner had charge of the company's work in Mexico.

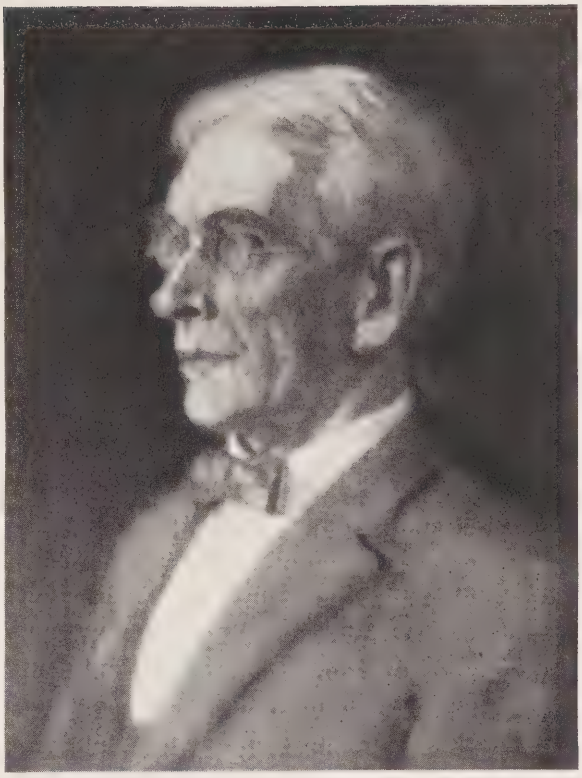
In 1890 his alma mater claimed him, and Mr. Wagner was appointed Assistant Professor of Mechanical Engineering at the University of Michigan. It was at this time, while engaged in professional engineering in addition to his teaching, that he became interested in patent litigation, a field which has engaged much of his attention since that time.

It was in 1896 that Prof. Wagner left the University of Michigan to take a position as Associate Professor of Steam Engineering at Rose Polytechnic Institute. He became Professor of Steam and Electrical Engineering in 1904, and Professor of Mechanical Engineering in 1920.

Prof. Wagner was elected to the presidency of the Rose Polytechnic Institute in 1923, and at his inaugeration in June, 1924, the honorary degree of Doctor of Science was conferred upon him. The school has prospered under Dr. Wagner's administration and a new period of development under his guidance seems assured.

Dr. Wagner is a fellow of the American Association for the Advancement of Science, a member of the American Society of Mechanical Engineers, an associate member of the American Institute of Electrical Engineers, the Society for the Promotion of Engineering Education, and a member of Tau Beta Pi.

Dr. Carl Leo Mees, President Emeritus



CARL Leo Mees was born May 20, 1853, at Columbus, Ohio. His early education was obtained in Columbus, and it was there that he received his first degree, graduating from Starling Medical College as a Doctor of Medicine in 1874. Dr. Mees then became a student at Ohio State University, in 1874 and 1875. He continued his post-graduate studies later at the University of Berlin and at South Kensington, England, receiving the degree of Doctor of Philosophy in 1892.

In the meantime, Dr. Mees had been an assistant chemist in the Ohio Geological Survey in 1871-74, while a student at the medical college. After completing his course at Ohio University, Dr. Mees took a position as Professor of Physics at Male High School in Louisville, Kentucky, where he taught until 1880.

In 1882, Dr. Mees was called back to Ohio University, where he was appointed Professor of Physics. He continued in that capacity until 1887.

It was in that year that Dr. Mees came to Rose Polytechnic Institute to fill a similar position, that of Professor of Physics. The Institute was then but a few years old, the first class having graduated only two years before.

Dr. Mees was elected president of Rose Polytechnic Institute in 1896, and he held that office until his retirement in 1919. It was under the administration of Dr. Mees that the Institute first began to take its present high position in the engineering world, and to him must go much of the credit for the development of the school.

Since his retirement from active presidency, Dr. Mees has not lost any of his deep interest in Rose, and he is a frequent visitor at the school. Revered by every Rose graduate, Dr. Mees is known as "the grand old man" to every alumnus. In November, one Saturday is set aside as Dr. Mees' Day, in his honor.

Dr. Mees is a fellow of the American Association for the Advancement of Science, a member of the American Physicist's Society, the Society for the Promotion of Engineering Education, the American Institute of Electrical Engineers, and of the Indiana Academy of Science.

John B. Peddle, Professor of Machine Design; B. S., Rose Polytechnic Institute, 1888; M. S., 1895; M. E., 1900.

John White, Professor of Chemistry and Chemical Engineering; B A., Johns Hopkins University, 1888; M. A., and Ph. D., 1891. Sigma Xi.

Robert L. McCormick, Professor of Civil Engineering; B. S., Rose Polytechnic Institute, 1891; M. S., 1906; C. E., 1907; Heminway Gold Medal and Scholarship; Chairman, Indiana Board of Registration for Engineers and Surveyors, 1921-1923. A. S. C. E., A. R. E. A., and Ind. Eng. Soc.

Clarence C. Knipmeyer, Professor of Electrical Engineering; B. S., University of Michigan, 1907. Sigma Xi.

Albert A. Faurot, Professor of Modern Languages; B. L., University of Nebraska, 1891; M. A., 1895.

Clarence P. Sousley, Professor of Mathematics; B. A. and M. A., Kentucky Wesleyan, 1909; Ph. D., Johns Hopkins University, 1915.

Orion L. Stock, Associate Professor of Drawing and Architectural Engineering; B. S., Rose Polytechnic Institute, 1908; B. S., Architectural Engineering, 1912; M. S., 1914.

Alfred T. Child, Associate Professor of Chemical Engineering; B. A., Amherst, 1898; M. A., Columbia University, 1900.

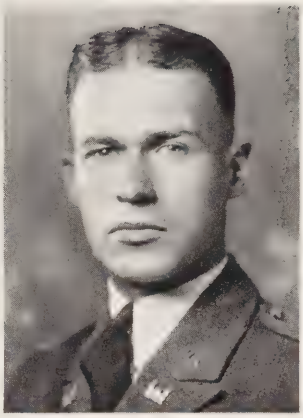
Roland E. Hutchins, Associate Professor of Civil Engineering; B. S., Brown University, 1910. A. S. C. E. Sigma Xi.

William W. Bessell, 1st Lt., Corps of Engineers; Professor of Military Science and Tactics; United States Military Academy, 1920, C. E., Rensselaer Polytechnic Institute, 1922. Sigma Xi.

Carl Wischmeyer, Professor of Mechanical Engineering; B. S., Rose Polytechnic Institute, 1906; M. S., 1910; M. E., 1920.

Berton A. Howlett, Professor of Physics; B. S., Valparaiso University, 1913; B. A., 1914; M. S., University of Chicago, 1917; Ph. D., Indiana University, 1924; Waterman Research Assistant. Phi Beta Kappa, Sigma Xi.

George W. Greenleaf, Assistant Professor of Shop Management.



Richardson Selee, 1st Lt., Corps of Engineers; Assistant Professor of Military Science and Tactics; C. E., Cornell, 1921.

Claude N. Settles, Assistant Professor of English and Economics; B. A., Wabash College, 1915.

H. Russel Mason, Instructor in Physics and Electrical Engineering; Bachelor of Electrical Engineering, Ohio State University, 1917

Sylvester Kearns, Warrent Officer; Instructor in Military Science and Tactics.

Benjamin H. Pine, Bursar.

Mary Gilbert, Registrar.

Ruth Richart, Ass't Librarian.

Barbara Wagner, B. A., Secretary to the President.

August H. Godecke, Instructor in Forging and Tempering.

Oscar L. Richmond, Instructor in Pattern making.

Frank W. Mooney, Instructor in Machine Practice.

Class Officers

RALPH DAVY
President

RAYMOND DAVIS
Vice-President

ARTHUR REINKING
Sec'y.-Treas.

1927

THE Royal Wearers of The Sacred Corduroy got off with a flying start last fall, and after the usual strenuous political campaign, followed by the stuffing of ballot boxes, buying of votes, mayhem, and insurrection, the election of officers took place. When the smoke had cleared it was discovered that Ralph Davy was president, Ray Davis had slipped in as vice-president, and Art Reinking was holding down the job of secretary-treasurer, taking care of the money, if any.

With most of the excitement out of the way, a few of the boys began to settle down to the routine of school. Claude Sweeney, Art Reinking, Russell Staggs, Dick Brown, and Earl Kunz managed to make the football team, while later in the season Art Reinking made himself useful on the basket-tossing squad. Fred Trautman, Ed Dunning, and Art Reinking again, under Bob Wade as captain, upheld the glory of old '27 (cheers) on the track team. Claude Sweeney, another of our sterling athletes, was one of the mainstays of the baseball team.

St. Pat's day finaly rolled around, and the R. W. o. t. S. C., after having labored hard the previous week to make the celebration a success, spent the day in a fitting manner. Ray Davis, Ed Dunning, and Ralph Davy were in charge of the festivities.

The boys who could afford to buy shells got together one morning and had the shoot-up. A good time was had by all.

Dear Old Rose

Song

Dear old Rose,
The sweetest flower that grows;
Here's to your colors, rose and white—
Here's to the men who've kept them bright,
Colors true
For men who honor you;
Here's to every thing you've done—
Here's to every fight you've won—
Dear old Rose!

Juniors

"—Then the soldier,
Full of strange oaths, and bearded like the 'pard,
Jealous in honor, sudden and quick in quarrel,
Seeking the bubble reputation
Even in the cannon's mouth."

—Shakespeare

Class Officers

HAROLD YORK	ROBERT TAGGART	JOHN HARVEY
President	Vice-President	Sec'y.-Treas.

1928

WHAT is probably the largest Junior class that ever escaped the axe as wielded by Doc. Sousley, Prof. Fauret, etc., etc., assembled at the beginning of the school year. Mr. Harold "Doc" York garnered the most votes in the big election, and was duly hailed as president. Mr. Robert Taggart hooked the vice-president's job, and Mr. John Harvey took the strenuous job of secretary-treasuring.

The first social event of the year took place when the Junior class held its annual banquet and party. After the banquet the class assembled at the school, where the party was held. The building was tastefully decorated for the occasion. At a late hour members of the faculty dropped in to enjoy the festivities. Refreshments were served throughout the evening.

The Juniors supplied the material for most of the athletic teams. All of the first five of the basketball team, and three of the other six men were Juniors. Mr. Lee Berry was captain of the basketball team, and Mr. Alexander Babillis held the same position on the baseball team. Mr. Red Taggart has been doubly honored, having been elected to captain both the basketball and baseball teams for the next year.

The Prom was a huge success, thanks to the efforts of Mr. Art Drompp, general chairman, and his committee.

1929

HANDICAPPED by small numbers, the Sophomore class got away for a bad start last fall when the rhynies swarmed into the arena and piled on the struggling class of '29 about three deep. It was only due to the bitter scrap put up by the Sophs that the battle lasted as long as it did. As a result, the Sophomores took another truck ride. The overwhelming numbers of the frosh was only too eviednt at the interclass games the following Saturday, when the Sophs came out second best in every event except the pipe rush, which we captured by strategy, and the judges gave that to the freshmen.

Ray Harris received the approval of the class, and took the helm as president. Volney Hutchinson was made vice-president, while Al Porter took the secretary-treasurer's job.

The Sophomores have been rather active in the various school activities, holding positions on the Technic staff, besides placing several men on various athletic teams. Jack Derry has been chosen to lead the gridiron warriors next season. Max White, high point man on the track team this season, has been selected to lead the tracksters next spring.

1930

WITH George Hauer and Milo Dean as fight captains, the Freshmen (capital "F," please) proceded to mop up the earth, or mud, with the class of '29. The scrimmage was hot while it lasted, but the Sophs were no match for the Freshmen, and they were soon distributed over the surrounding country, to get back any way they could. The interclass games were all ours for the Sophs took the count in every event.

The class election placed Milo Dean in the president's chair, with Andy Davy in the official capacity of vice-president and Joe Hunter as secretary-treasurer. Kenneth Alexander and George Hauer were elected to the Athletic Board.

Athletics engaged the attention of many of the members of the class of '30. Ted Borries, Clyde Marsh, George Hauer, Mike Ellis and Milo Dean earned their letters on the football team. Russell "Pop" Moore was the only freshman on the basketball squad. Milo Dean, Henry Fitch, Paul Baker, Stine Beem, and Sandy Hill were the Freshman mainstays on the track team, while several others were out for the team. The baseball team claimed Howard Wills, Sandy Hill, Frosty Peters, and John Gibbens. These men are sure to prove assets to the future athletic teams.

ATHLETICS

FOOTBALL

Heze Clark, Coach

HEZE Clark, athletic director at the Rose Polytechnic Institute, was a three letter man at Shortridge High School, Indianapolis, for four years. He was a football letter man at Indiana in 1904, '05, '06. After his college days he was athletic director at the Indianapolis Marion Club. He first came to Rose as coach in the fall of 1908, and stayed until the close of football season in 1911. For the next ten years, Heze wrote sports for the Indianapolis Times and coached the basketball teams of the Indiana Dental College. For one year during the war Clark was athletic director in aviation at the Great Lakes Naval Training Station. In the fall of 1923 Heze returned to Rose as director of athletics. When he first came here the school lacked an athletic field. Through the cooperation of the school authorities and the Alumni, he was able to construct an athletic field, which while far from complete gives promise of becoming one of the best college fields in the State. The first track meet was held on the track in the spring of 1926 and numerous college and high school meets have been held on this field since then. The first football games were played on the field last fall. No baseball games have been played on the new diamond because of the heavy rainy weather during the present spring. Rose has one of the best cinder tracks in the state and it is hoped that the 220 yard straightaway will be completed. What a good track team means to Rose is shown by the fact that Heze has been able to develop an evenly balanced track and field team in the last two seasons.

Rear row:—Nehf, Lee, White, Gibbens, Borries, Harvey, Blanford,

Middle row:—Drompp, ass't. mgr., Brown, Reveal, McKillop, Gibson, Marsh, Sweeney, Menden, Taggart, Davy, Adams.

Front row:—Reinking, Staggs, Ellis, Sawyers, Kunz, Martin, Derry, Dean, Hauer.

Football Squad

THE football squad was rather small this year due to the limited material to draw from. Many of the mainstays of the team were untried freshmen, with a few experienced men left over from the year before. Coach Clark faced quite a problem in getting a team in shape for the first game, less than two weeks after school opened. The men worked hard and cooperated with the coach, so that Rose Poly was well represented on the Gridiron this season. It is true the team lost most of their games but their hard fighting and good sportsmanship was a credit to the team and the school.

It seemed as though the team couldn't shake the jinx so kindly donated by Georgetown College in the second game of the season, consequently the record made by the team this fall was not a state winner, but we'll be there next fall as we lose only five men by graduation. To the men who leave, we're sorry to see you go. To the men who will be back, let's see the old pepper next fall and make 1928 the best season of the school's history.

The Football Season

ACCORDING to games won and lost, the football season at Rose was not a success. The team finished the season with one victory and seven defeats, but in several of the games Rose received more credit for its splendid showing, although defeated, than their victorious opponents. Injuries and "tough breaks" followed the squad all year and several times a "break" was the difference between a win and a loss.

During the season, the playing of several men stood out above that of their team-mates. Special note should be made of Arthur Reinking, halfback, James Sawyer, guard, Robert Taggart, quarter-back, and Russel Staggs, and, for their splendid showing during the season. Staggs received the Bigwood Trophy for sportsmanship and excellent work on the gridiron, while Reinking and Sawyers represented Rose on the mythical All-State team. Taggart, although handicapped by injuries for a part of the season, stamped himself as one of the best backs that ever played on a Rose Poly team.

Rose started the season with a victory over Vincennes University, by the score of 10 to 0. It was a typical early season game and frequent fumbles kept the score low. The feature of this game was the defensive work of acting-Captain Dick Brown, and the open field running of Dean and Sweeney. Dean scored the only touchdown of the game and Harvey contributed the rest by two place kicks, one after Dean's touchdown and the other later in the game.

For the second game of the season, Rose journeyed to Georgetown, Ky., to take on the strong Georgetown College team. The work of Ellis, Kunz, and Sawyers was outstanding although Rose was defeated 31 to 3. John Harvey saved Rose from a shutout by a pretty placekick from the forty-two yard line in the last minute of play.

The University of Louisville buried the Engineers under an avalanche of touchdowns to take the third game of the season 49 to 0. This was the worst beating the team took during the entire season. The entire Rose team was helpless and registered only one first down in the game. The brilliant work of Sweeney and Taggart took part of the sting out of the defeat. Sweeney's punts on numerous occasions drove the Louisville team deep in their own territory but the Rose defense was unable to solve the Cardinals offense.

Evansville College took a tough battle from Rose by the score of 7 to 6, in the fourth game of the season. A close decision by the umpire donated Evansville

a touchdown after the Engineers had scored in the first minute of play. Although the Engineers outplayed their opponents in all stages of the game they were unable to score any more points to win. Reinking was in the game for the first time this season. Taggart and Staggs were the offensive stars of the game while Derry and Kunz were best on defense.

Rose lost to Central Normal by the score of 17 to 0 for the fifth game of the season. Ragged playing by the Engineers donated Central two touchdowns in the first half, but in the second half they held Central to a lone field goal. The Normal line outweighed our line by several pounds per man, and their backs were unusually heavy men against whom the lighter Rose men could not withstand. Reinking, Taggart and Staggs featured for Rose, and the whole team showed a world of fight in the second half.

Eastern Illinois State Normal defeated Rose in the first home game by the score of 14 to 0. The field was very wet and the light Rose backs were helpless. Dean at quarter played a wonderful defensive game and averted one seemly sure touchdown. Borries, freshman guard, stopped the E. I. S. N. backs on numerous occasions and showed that he deserved his place on the team. Reinking turned in some nice runs and with a dry field the result of the game would have undoubtly been different.

The second and last home game of the season was set as the homecoming game, with Earlham College as the opponents. Rose got away with an early lead when Taggart passed from midfield to Reinking who caught the ball and went 35 yards for a touchdown. A safety gave Earlham 2 points and Rose led for almost three-quarters by the score of 6 to 2.

Earlham completed a long pass just before the end of the game that paved the way for a touchdown to win by the score of 8 to 6. It was sure a tough game to lose because Rose outplayed Earlham all during the game. The entire Rose team deserves a world of credit for their splendid showing but special notice is due to Art Reinking and Red Taggart in the backfield and Mike Ellis, Jack Derry, and Jim Sawyers on the line.

Rose was defeated by Hanover College 25 to 0 in the final game of the season. The game was slowed up by numerous penalties, but long runs (by Hanover men) with intercepted passes, furnished plenty of thrills. Dean, Harvey and Marsh featured for Rose on the offensive while Sawyers, Kunz, Borries and Staggs were the defensive stars of the game. This game closed the college football career of Reinking, Brown, Staggs, Kunz, and Sweeney.

HARVEY

REINKING

SWEENEY

MARTIN

JOHN HARVEY

HARVEY completed his second year of varsity football with a good record. His position is fullback and he will be back next year with the same fight that has carried him through two successful seasons.

ARTHUR REINKING "ART"

REINKING landed on the honorable mention on the all-state team this year as a halfback. He graduates this year and will be missed a great deal next season.

CLAUDE SWEENEY "RED"

SWEENEY'S graduation leaves another hole that will be hard to fill next fall. "Red" has made a good record in his three years of college football.

VIRGIL MARTIN

MARTIN is a lineman of some repute and will make his presence felt in his last year of college football.

BROWN DEAN BORRIES DERRY

RICHARD BROWN "DICK"

ALTHOUGH hampered by injuries Brown was perhaps the best lineman on the squad this year and his graduation will leave a big hole to plug up.

MILO DEAN

DEAN certainly lived up to his high school reputation. His speed and aggressiveness made up for his lack of weight, in his playing at halfback or end. Dean will be lost to Rose this year as he is to enter the Naval Academy in July.

FRED BORRIES "TED"

BORRIES is the heavyweight and his size and ability marks him as one of the best linemen on the squad. We expect much of him in the next three years.

Cap't-elect JOHN DERRY "JACK"

CAP'T-elect Derry played all but three minutes of every game this season and will be a good example for his team-mates next year. This was Derry's first year on the squad and he turned in some good work at the tackle and end position.

KUNZ

TAGGART

HAUER

ELLIS

EARL KUNZ

KUNZ finished his college career with a creditable record. He played center for three years, and will be missed a great deal next fall.

ROBERT TAGGART "RED"

TAGGART was one of the most versatile backfield men on the team. His passing and field generalship marked him as one of the best in the state when it comes to handling the ball or the team. He'll be back for one more year.

GEORGE HAUER

IN his first year of college football, Hauer made a name for himself as an end. With this year's experience to help him, he is expected to do great things in the three years he has left.

ALBERT ELLIS "MIKE"

IF the playing of Ellis, last season is any indication of what he will do in the future, Rose Poly will have one of the best linemen in the State, as "Mike" has three more years of Varsity competition.

SAWYERS

MARSH

STAGGS

GIBBENS

JAMES SAWYERS "JIM"

SAWYERS was given honorable mention as a guard on this years State Teams, and will surely repeat in the two years he has left.

CLYDE MARSH

MARSH made good as a halfback in his first year at Rose and more will probably be heard from him in the next three years.

RUSSELL STAGGS

STAGGS was the unanimous choice of the judges for the Bigwood Award in football this year. He is an end of no mean ability and will be missed next season as this is his Senior year.

JOHN GIBBENS

GIBBENS is a big, rangy freshman with much promise as a lineman. We're expecting much of him in the next three years.

ADAMS WHITE BLANFORD GIBSON McKILLOP

REX ADAMS

ADAMS will be back for one more year to try to live up to his reputation as the utility man for mid-week scrimmage.

EDGAR WHITE "WHITEY"

WHITE is another lineman with lots of size to help him out. He will be a valuable man during the remainder of his school days.

HOWARD BLANFORD "PAT"

ALTHOUGH small in size and without experience Blanford was a willing pupil and will see much service before he graduates in '30.

"HOOT" GIBSON

"HOOT" Gibson is another freshman who shows signs of eventually developing into a backfield man. Although he hasn't had the opportunity to show what he can do in a regular game, Gibson showed up well in practice.

IAASAC McKILLOP, "IKE"

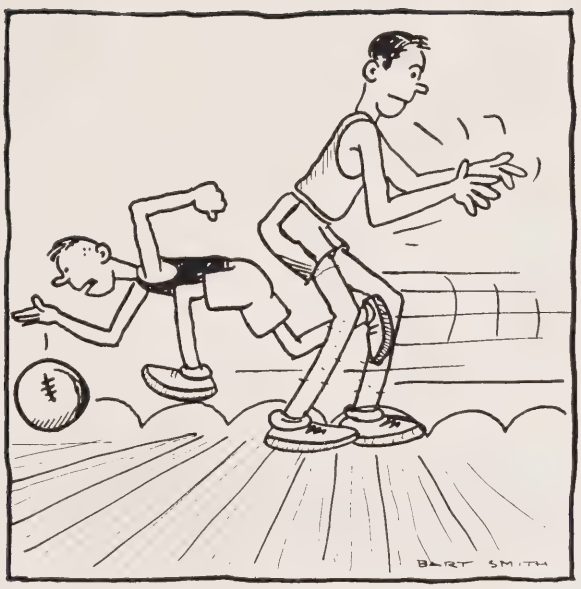
McKILLOP played good football in his first year of varsity competition and with this years experience to help him should do much better next year.

Football Prospects For 1928

PROSPECTS for a winning team for 1928 are the brightest in years. Never since the school was moved to its present site has there been such a wealth of material in sight for the following season. With only five men graduating out of a squad of over twenty-five, Rose backers have a right to expect a good showing next fall. Next fall, for the first time in the last three years, the team will be under the guidance of a permenant captain. Teams of the last two seasons have not been able to come to any definite conclusion regarding a leader. As a result, a different captain was chosen by Coach Heze Clark, just before each contest. It is believed that the temporary captain system may have been one of the factors in the lack of success on the football field during the past seasons. John Derry, a Sophomore who showed real ability on the line during last fall's campaign, has been selected to lead the team.

Material for a well balanced team will be back next fall. The backfield will have the services of Red Taggart, John Harvey, Bill Leake, Clyde Marsh, Andy Davy, a few of the more promising candidates. Besides these there is a host of good men who saw a little service last season who are expected to come through. The line will present one of the scrappiest forward walls of any Rose team in recent years, with Virgil Martin, Bud Lee, Ted Borries, Ed White, Jack Derry, Mike Ellis, John Gibbens, Andy Nehf, and George Hauer holding down most of the positions. Besides these, there are several men in school who may be eligible next fall that have been kept off of the team by scholastic difficulties.

Another prospective source of material is from the incoming Freshman class. Since the freshman rule was abolished at Rose last year, the freshmen proved a valuable adition to the team last fall. With the advent of a few freshmen of ability, the football prospects, already bright, will look better still.



BASKET BALL

Captain Lee Berry

UNDER the leadership of Lee Berry, the basketball team enjoyed one of the best years in the history of the school. This season found almost every school in the state with an excellent team and Rose was no exception. Although the team lost more games than they won; they ranked high in the state this year, in fact above several schools that are considered out of our class. Much credit is due Captain Berry for the excellent showing made by the team, because of his efforts and following his example.

The offensive and defensive play of Cap't Berry marks him as one of the most valuable players on the squad, if it is possible to choose a man that stands out above any of his mates. Lee will be back next year.

The Season

ROSE started this season with five letter men from last year and one from two years ago, along with a world of freshmen who worked under the guidance of Bob Alexander. A great deal was expected of the team this year and the fellows did their best against some of the best teams in the State. Rose should be proud of the showing the team made this year and back them for all they are worth next year which will be the best yet.

DAVE HOFFMAN
Manager

ANDY NEHF
Ass't.-Mgr.

Rose opened the season against the Normal college of the North American Gymnastic Union. The Rose boys got started early and played a fast offensive, as well as a tight defensive game. When the smoke cleared Rose was ahead 32 to 20. Goddard and Taggart kept the opposing forwards away from the goal while Thompson and Kasameyer bombarded the N. A. G. U. goal for 13 and 9 points respectively. The rest of the scoring was evenly divided between Goddard and Berry.

Rose faced the strong Indiana Central team in the second game of the season and was caught flat-footed. Indiana Central won by the score of 37 to 16. The Rose basketeers were outplayed in every department of the game.

Eastern Illinois State Normal was the next opponent for Rose, and Rose took the count 33 to 28. Goddard was the big man on the offensive and Taggart shone for Rose on defensive. Kasameyer and Thompson, Rose scoring aces were helpless on the small E. I. S. N. floor. In the last half of the game Rose outplayed their opponents but their rally was cut short by the final gun.

Rose defeated Huntington College 33 to 30 in the last game before the Christmas holidays. The game was fast and both teams were better on offense than defense although Taggart for Rose had the edge on his opponent. Thompson led the scoring for Rose with six field goals.

Rose again played Huntington College in their first game after the holidays, but it was a different Huntington team than the squad Rose defeated a few weeks before. The Huntington players made better than half of their shots good to win 56 to 28. Taggart played best for Rose on the defense and kept the Huntington men to long shots but they registered with uncanny regularity. Goddard, Berry and Moore played well for Rose but the early lead piled up by Huntington was too much to overcome.

Manchester College defeated Rose 59 to 35 the night after the Huntington game in a slow, deliberate game. Kasameyer led the Rose attack with eight field goals and four free throws and was ably assisted by Goddard who played a strong floor game. Rose kept even with Manchester until well in the second half but were unable to cope with the tall Manchester forwards.

Rose was defeated by Central Normal in a fast game to the tune of 47 to 35. The Central guards kept the Rose men shooting from long range while they uncorked a dazzling passing game that Rose couldn't stop. Goddard and Taggart kept Rose in the running by their long shots, Taggart scoring twice and Goddard five times from the field.

Earlham was the next opponent for Rose and again Rose was defeated. Earlham displayed a fast attack that spelled defeat for Rose. Kasameyer led the Rose attack with five field goals and a free throw. Taggart fought hard on defense and repeatedly stopped the Earlham forwards.

The University of Louisville furnished the next opposition for Rose, and after the regulation period, two extra periods were necessary to decide the winner. The score was tied during most of the game and it was not until just before the end of the second over-time that Louisville took a 41-39 lead. Kasameyer was the

high scorer of the game. Both teams had an airtight defense and a fast traveling offense, but the game was very clean and hard fought. The defeat was hard to take but the losers desrve as much credit as the winners.

Rose broke into the win column again at the expense of Vincennes University, by the score of 47 to 21. This game marked the return of Bob Alexander, star forward on the 1926 team. Kasameyer, Berry and Goddard featured for Rose on the offense and as usual Taggart starred on the defense. Goddard with 12 and Kasey with 14 points were the big men for Rose. Kasameyer scored his points from close in shots while Goddard hit the net from every angle.

Rose played Oakland City College the next night and were defeated 48 to 29. Alexander, who replaced Thompson early in the fray was high scorer for Rose with four field goals and a free throw. Rose held the Oaks even in the first half but their defense blew up in the last half.

Oakland City also furnished the opposition for Rose in the next game, and it was a different story. Rose turned the table on the Oaks and won after a hard fight by the score of 38 to 34. Kasameyer and Alexander led the scoring for the Rose team with eight and six field goals respectively. Taggart and Berry shone in a defense so tight, at the start of the game, that Oakland City did not score in the first twelve minutes. Later in the game they made a determined rally that the final gun cut short.

The Rose players then made a two trip to Indianapolis to play Indiana Central and N. A. G. U. Indiana Central was the first victim of the fast traveling Engineers, at the tune of 42 to 38. The game was fast and furious with Rose holding the scant margin at the gun. Rose jumped in the lead at the start and was never headed. Kasameyer and Alexander hit the net six times apiece and were the scoring aces for Rose. Taggart and Goddard played wonderful defensive games and also found time to score enough points to put the game on ice. N. A. G. U. put up a stiffer fight and were downed in an overtime tilt 26 to 22. The Rose men played more of a defensive game because of the size of the floor. The play was rough and very slow. Berry and Kasameyer carried most of the

burden for the Engineers in a scoring way while Taggart and Goddard played their usual steady defensive game.

E. I. S. N. journied over from the wilds west of Paris to show how basketball should be played. They were almost foiled in their resolve, but an error of ommision by the entire Rose team allowed them to win after they had trailed the whole game. The final score was 37 to 36. Rose led at the half 22 to 7. With three minutes to go the Engineers led 36 to 24 but a sensational spurt by the "Suckers" scored them 13 points and a win in the final minutes. Alexander was high scorer for Rose while Kasameyer, Rose ace was held scoreless by the giant Illinois guards. Taggart deserves a world of credit for his game fight throughout the contest.

Vincennes came to Terre Haute for a return match with the Clarkmen and returned without the bacon. Rose piled up 41 to their 25 to gain the verdict. Kasameyer was "on" and scored ten times from the field and once from the foul line. The entire Rose team showed up well and fed the ball to Kasey as he was hitting.

Rose journied down the river for the last game of the season with Hanover and Louisville, in the order named. They failed to get started against Hanover and lost 43 to 27. Berry and Alexander played best for the Engineers while as usual Taggart put up a nice game at back guard.

The next night Louisville was the opposition and they were much better than at the first meeting, winning by a 43 to 35 count. Alexander and Kasameyer were the big guns for Rose in a scoring way, while Berry put up a good game. Reinking played his last game as an Engineer, as he is a Senior.

The Rose team had a good season although they did not win all their games or even half of them. The spirit shown by the men was good and we'll see them all back to make next year the best yet.

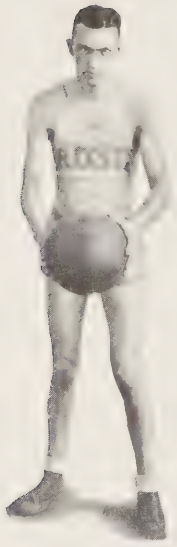
Rear row: Hoffman, Mgr.; Thompson, forward; Nehf, ass't mgr.; Moore, guard; Coach Clark. Middle row: Alexander, forward; Kasameyer, forward; Capt. Berry, center; Goddard, guard, center; Taggart, guard. Seated: Franzwa, forward; Reinking, forward, guard; Adams, guard; Sawyers, guard.

The Squad

THE basketball team enjoyed one of the best seasons in the history of the school. Their seemed to be a surplus of "Wonder Fives" this year and although Rose lost more games than they won, their record for the year is excellent. In the race for State honors Rose ranked above such schools as DePauw, Central Normal, Manchester and Earlham, even though Rose was defeated by several of these schools.

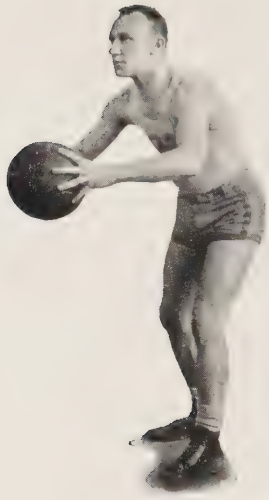
The credit for this splendid showing is due to the men on the squad, because of their fight in the face of overwhelming odds. Most of our opponents were much larger schools, with more men to draw from. In spite of this handicap Rose was well represented on the hardwood courts last season.

With the exception of one man the entire squad will be back next year to make it a banner year for Rose on the hardwood court.



KASAMEYER

TAGGART



REINKING

ALFRED KASAMEYER

KASAMEYER was the high point man for the last season and ranked well up in the state scoring. He plays a fast floor game and is very clever when handling the ball. Because of his excellent playing and fine sportsmanship he was awarded the Bigwood Trophy, a gold basketball, at the close of the season. "Kasey" has one more year of Varsity ball.

ROBERT TAGGART

TAGGART was one of the best back guards in the State last year and has been selected to captain the team next year. His guarding usually featured every game as he caused no end of worry to the opposing offense. He'll be back for one more year.

ARTHUR REINKING

REINKING is the only Senior on the team this year. He performs either at the forward or floorguard station. He will be missed next year.

THOMPSON

GODDARD

ALEXANDER

ROBERT THOMPSON

"BOB" started the season at a forward position and led the team in scoring until an operation performed during the Christmas holidays forced him out for a while. He could always be depended on to start a second half rally and generally came through in a pinch. He will be a valuable man next year.

JAMES GODDARD

"JIM" was the largest man on the squad and performed at the floor guard and center positions. He'll be back next year to help the team out.

ROBERT ALEXANDER

"ALEX" wasn't eligible until the second semester and saw service in only nine games. Nevertheless his play easily won him a regular position and his eagle basket eye netted him 90 points for the season. He is also a Junior and has another year.

FRANZWA

MOORE

ADAMS

SAWYERS

FRED FRANZWA

"DUTCH" is another of the Juniors on the team this year. He was a dependable substitute and saw service in a number of games.

RUSSELL MOORE

MOORE was the only freshman on the team. He was the understudy for Taggart, and will be in the midst of it again next season.

REX ADAMS

ADAMS saw most of the games from the bench but his inexperience held him back. He'll be back next year to give them all a fight for a regular job.

JAMES SAWYERS

SAWYERS started the season on the bench but soon won a regular position as floorguard. When he became ineligible in the mid-year his loss was keenly felt. We're hoping he'll be back next year to help out.

BASE BALL

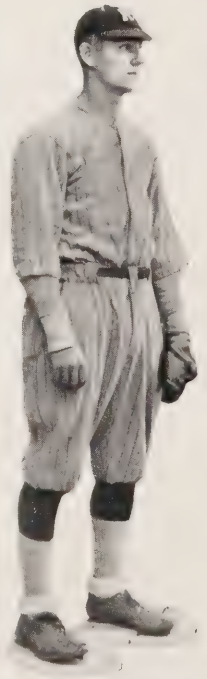
Coach Grose

JACK Grose, former State Normal athlete was selected as the 1927 Rose baseball coach. Rose was indeed fortunate in securing the service of Grose, for he came highly recommended from every source and does his work in a business-like manner that makes us believe that Rose's baseball nine will enjoy success under his tutelage.

Grose comes from our neighboring institution of learning —State Normal—where his athletic record is quite imposing. His work extended not only on the baseball field, where he won two letters, but on the basketball court and gridiron. He won four letters in basketball, two in baseball and one in football. He gave his best to the school for which he played, and we believe that he will give as much to the school at which he coaches.

His athletic service has extended over a period of some 10 years. In that space of time he has witnessed the game from every angle: that of a player—that of a coach—of an official and a spectator. Thus, athletics, whether playing or coaching, is not a new field to our new mentor and should be a successful phase of his life.

Captain Babillis



THE captain of this year's baseball team was Alexander Babillis. He is a pitcher, who made a wonderful record in his first year of college baseball, and he justified the confidence placed in him by his team mates.

That the season just finished was not as successful as the preceeding seasons, should not be reflected on Captain Babillis. The weather during the short baseball season was anything but baseball weather, and it was practically impossible to play any games on the local field. In fact, the team was able to practice on the home diamond only once during the season. A great deal of credit is due to Captain Babillis and the team for their persistance in spite of the ravages of Jupe Pluvius. The team finished their abbreviated season with five defeats and one victory. Most of the games lost were by very close scores and on unearned runs. Once during the season the team played errorless ball, and that resulted in a victory for Rose.

Summary of Baseball Schedule

	R.H.E.		*R.H.E.*
E. I. S. N.	12- 9-6	Rose	6- 7-9
Ind. Central	4- 5-0	Rose	3-13-6

The Season

ROSE started the season under the guidance of Jack Grose and Captain Babillis with a veteran team. The new coach only had charge of the team a few days before the opening game and the players had no opportunity to practice together much.

The season opened against E. I. S. N. and Rose suffered their first defeat, 12 to 6. The Grosemen led until the eighth inning when the Teachers touched Babillis and Sweeney for six runs. Rose errors paved the way for the downfall of Babillis and the support given Sweeney was very poor. The E. I. S. N. batters outhit Rose 12 to 9 but Rose made 13 errors behind their pitchers and that was their downfall.

Rose next played Indiana Central there. Peters pitched for Rose and allowed only 5 hits, but his teammates made six errors behind him and Rose was defeated 4 to 3. Rose got 13 hits but couldn't turn them into runs. Kehoe with 4 hits and Taggart with three led the Rose attack.

Rose met DePauw in the next game after a lay-off of almost three weeks because of bad weather. Morris of DePauw allowed only three hits and Rose was shut out 6 to 0. Babillis for Rose allowed 9 hits and his mates made 6 errors. None of the DePauw runs were earned. Hill got a double for one of the Rose hits. Dowen and Babillis each got singles.

After two more weeks of rain, Rose met Wabash in a double-header at Crawfordsville. Babillis pitched the first game and allowed seven hits. His team-mates hit two Wabash pitchers hard, but again Rose errors lost for them. Alexander got three hits and Taggart and Kehoe got two each to feature for Rose. Peters started the second game for Rose but retired in favor of Kasameyer in the second inning. Kasameyer allowed only four hits and struck out three. Rose outhit Wabash 10 to 7 but were unable to turn hits into runs and were defeated 9 to 4. The team made two errors behind their pitchers but both were costly.

Rose played DePauw again on May 20. Again Rose was defeated 4 to 2. The DePauw hitters got ten hits off Babillis while the Rose men could only rake up seven. Rose made seven errors that donated DePauw three of their four runs. Taggart was the only Rose batter to get more than one hit.

Rose defeated Oakland City 8 to 1 in the final game of the season. The Rose team hit the ball hard and totaled 19 hits. The team played errorless ball and Peters kept the Oak's nine hits well scattered. Thompson, with 4 hits was the offensive star for Rose.

Rear row: Crutcher, mgr.; Wills, utility; Sweeney, o.f.; Coach Grose; Goddard, o.f.; Reed, ass't. mgr.
Middle row: Kehoe, 1b.; Gibbens, o.f.; Hill, o.f.; Thompson, c.; Alexander, o.f.;
Seated: Babillis, p.; Peters, p.; Taggart, s.s.; Leake, 3b.; Dowen, 2b.

The Baseball Squad

THE baseball team at Rose had one of the worst years in the history of the school. Rainy, cold weather caused much delay in the playoff of the schedule and three games were cancelled because the diamond was unfit to play on. There were no home games because the Rose field was never in shape. In only one case was lack of hits the cause of loosing the game, and the pitching was all that could be asked. The reason the team showed to such a disadvantage was the lack of a place to practice on. Some of the players played ball far below their usual standard and loose fielding lost most of the games. All of the members of the team except Sweeney will be back next year to make up for their poor showing this season, for which the team can hardly be blamed.

LEAKE SWEENEY ALEXANDER KEHOE

BILL LEAKE

ROSE'S stellar third baseman, Bill Leake, was back on the team after a year's inactivity because of ineligibility. Bill was one of the most promising prospects after his brilliant playing with the frosh team of two years ago, and he had no trouble in making a regular berth this year.

RED SWEENEY

OLD Reliable Sweeney wound up his athletic career at Rose this season, after having served on the baseball team for four straight years. Red has played practically every position on the team, finishing up this year in the outfield. Sweeney's graduation leaves the only hole in the ranks.

BOB ALEXANDER

ANOTHER freshman star of two years ago who is back on the job after a year's struggle with the grades, is Bob Alexander. Alex held down the left garden position this season in fine style. Alexander will be one of the mainstays of next year's team.

WAYNE KEHOE

AFTER holding down the initial sack for the Engineers in fine shape last year, there was no doubt as to who would take the job this season. Kehoe, besides taking care of his corner of the diamond, was one of the heavy hitters of the team with an average of .387. Another Junior.

DOWEN TAGGART PETERS HILL

BOB DOWEN

BOB Dowen created considerable interest last year in the way he held down the hot corner of the diamond, although only a freshman at that time, and the smallest man on the team. This season, Dowen took over second base in great shape. Besides taking care of his sack, Bob was one of the leading hitters with a .348 average. Bob is a Sophomore.

RED TAGGART

ROBERT Taggart, better known as "Red", has been chosen to captain the baseball team through next season. The selection was a wise one, as no one, on the team knows more baseball, or can play the game any better than Taggart. Red is always one of the chief polers, and this year was no exception, his average being .357. Taggart also takes care of the short-stop job.

JOHN PETERS

FROSTY is another freshman who is starting in early to make a name for himself. Frosty's twirling came in mighty handy. Although a pitcher is not usually expected to do much with the stick, Frosty was right up with the leaders when it came to touching the offerings of opposing pitchers.

SANDY HILL

HILL was another freshman who captured a regular position on the team, his job consisting of keeping the flies out of center field. Sandy was another who could be depended upon for a safe hit. Sandy's average was .300.

GODDARD THOMPSON MILLS GIBBENS

JIM GODDARD

THE right field job was held down by Jim Goddard. Jim had played two years on Rose teams previous to this season, and there was no question as to his ability. Goddard is one of the most consistant players on the team. Another Junior who will be back next year.

BOB THOMPSON

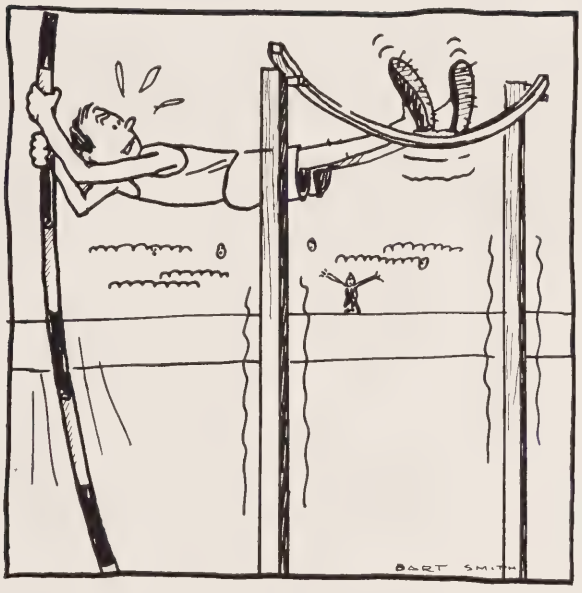
BOB Thompson was one of the most valuable men on the team this season. Bob has earned the reputation of being one of the best college catchers in the state. Besides stopping balls for Rose pitchers, he stops them for opposing twirlers, as his record of nine hits out of 23 trips to the plate would indicate. Bob will be stopping them again next year.

HOWARD WILLS

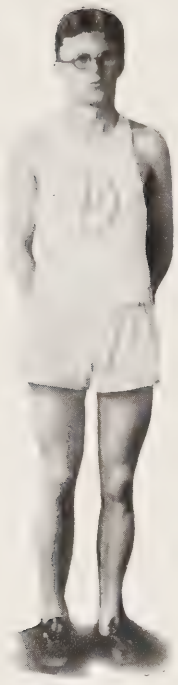
WHILE Wills' batting average is .416, he did not have as many trips to the plate as some. Wills got five bingles out of twelve chances. The fact remains, however, that Wills was one of the deadliest men on the squad when it came to waving the willow. Wills is only a freshman, and has a chance to worry opposing pitchers for three more seasons.

JOHN GIBBENS

ALTHOUGH he did not get much opportunity to show his stuff this year, Gibbens made the squad, and will undoubtedly be heard from in the next three years.



TRACK



Captain Bob Wade

CAPTAIN Bob Wade has put in three years as a track star at Rose. He is joint holder of the school record in the 220 yard dash, having covered that distance in the fast time of 22.4 seconds. The track squad was indeed fortunate in having a man of Bob's caliber to lead them through a very successful season. In addition to Wade's performance he was a member of the Relay team that holds the record for the 440 yard relay in the Hoosier Relays. Wade was a sure point winner in almost every meet in which he participated. Wade is a senior and the school will feel his loss keenly next track season. Bob's interest in track dates back to his Freshman days when he was a star on the shiny team. He has made three letters in track and a name for himself as a clean runner and a good athlete.

Max White

THE Gold Track-shoe trophy going to the high scorer of the team was captured by Max White, who nosed out Ted Barrett for the honor by placing in every meet, including the Big State Meet. Max is a pole vaulter and high jumper of statewide reputation. He won points in both of the state meets in the pole vault, and holds the school record in the high jump, topping 5 feet, 10 inches in the Hoosier Relays. Max has two more years of varsity competition before him, and has been chosen to captain the team through the 1928 season.

Schedule with Scores

April 9—Triangular meet

Butler 75 1/2
Rose 52 1/2
Oakland City 7

April 19—Dual Meet

Rose 106
E. I. S. N. 24

April 23—Triangular meet

Rose 68 1/2
Ind. Central 37 1/2
N. A. G. U. 32

May 2—Dual Meet

DePauw 101 1/3
Rose 24 2/3

May 7—Hoosier Relays (First four places)

Earlham—57
Muncie Normal—52
Rose—30 1/2
Central Normal—18

May 14—Little State Meet, Rose made 2 1/2 points. Depauw won the meet.

May 21—Big State Meet, Rose made 2 1/2 points. Indiana won the meet.

Resume of the Track Season

THE track season opened April 9 with a triangular meet, in which Rose faced Butler and Oakland City. After the first few events, the meet developed into a dual affair between Rose and Butler. Butler had the edge on Rose in the track events, but the Engineers were supreme in the field events. Butler won the meet, by virtue of their excellent work on the track, by a large margin. Oakland City did not figure prominently in the scoring. Barrett, White, and Derry were the high scorers for Rose. Captain Phillips of Butler, National 440 champ, was the outstanding star of the meet with three firsts. The final score was, Butler 75 1/2, Rose 52 1/2 and Oakland City 7.

The second meet of the season was a dual meet with E. I. S. N. The Rose men ran wild and took every first place but one, to score the largest number of points a Rose track team ever scored. Derry, White and Barrett were the high men for Rose. Baker broke the school record in the two-mile run when he made the distance in 11 minutes 15.2 seconds. The only first E. I. S. N. made was in the javelin, the last event. The final score of the meet was 106 to 24.

The third meet was another triangular affair with Rose, Indiana Central and N. A. G. U. competing. After the first seven events Rose was trailing by a number of points. Then the Engineers staged a rally and won the meet with 68 1/2 points to 37 1/2 for Indiana Central and 32 for N. A. G. U. Fitch broke the two-mile record set by Baker just four days before. The new record is 10 minutes 47.1 seconds. Clarence Muntz ran a very fast 440 and tied the record made by Paul Turk in 1906. The time of this race was 52.4 seconds. "Sandy" Hill won the century and 220 yard dashes. Derry sprained his ankle in the high hurdle race and was lost to the squad for the rest of the season. However he won the race. Davy won the low hurdles in a thrilling race that was decided in the last stride. Rose scored a slam in the half-mile run. Beem won the race with Muntz and Zimmerman finishing in the order named. It was the Engineers' day to win and they surely went to town.

Rose next met DePauw in a dual meet. The strong DePauw aggregation piled up an overwhelming lead, taking every first but one to win by the score of

101 1/3 to 24 2/3. Sandy Hill ran the hundred yard dash in 9.9 seconds to win for Rose their only first place. Hill also finished second in the 220 and was high scorer for Rose. Max White and Barrett also scored a number of points for the Engineers. The time for most of the events was very fast and Rose was completely outclassed by the DePauw men. Sturtridge, who finished second in the National Pentathlon was the high scorer for DePauw, bagging four firsts.

The Hoosier Relays was the next meet on deck and Coach Clark took a large squad over in hopes of winning the meet. The meet developed into a Triangular meet between Earlham, Muncie Normal and Rose, with Earlham holding the edge over the other two. Muncie was a close second with Rose third. Rose won both the half mile and quarter mile relays and finished second in the mile relay. Barrett won the javelin throw with a toss of 158 feet 6 inches. Hill, Muntz, White and Scharf also won points for Rose. The scores of the first four teams were Earlham 57, Muncie 52, Rose 30 and Central Normal 18.

The Rose team then went to the Little State Meet held at Greencastle, with DePauw as hosts. The home crew walked away with the meet. Rose got 2 1/2 points by means of White's tie for second in the Pole vault. Sandy Hill failed to qualify in the hundred and all the other Rose men had an off day. Phillips of Butler and Sturtridge of DePauw had a big day. Phillips won three firsts and Sturtridge won six. These performances easily outclassed the rest of the field.

Rose entered four men in the Big State meet this year. Of these White was the only one to score. Muntz was running third in the half-mile at the end of the first lap, when he stepped in a starting hole and sprained his ankle. Captain Wade ran a good race in the finals of the 220 yard dash but failed to place by a narrow margin. Barrett was the other Rose entry but he was unable to place in the stiff competition. Indiana won the meet making it the first time in fifteen years that a Notre Dame team has failed to win the meet.

TRAUTMAN BEEM DUNNING REINKING

FRED TRAUTMAN

IN addition to helping White in the pole vault Trautman also took charge of the finances of the team. He graduates this year and will be missed next year when points are needed in the pole vault.

STINE BEEM

BEEM is a Freshman half-miler, who made his letter in his first year. He will be back for three more years and will bear watching.

ED DUNNING

DUNNING is a sprinter of some note and will be missed next year at track time. He was a member of the relay team that took two firsts in the Hoosier Relays and his graduation leaves a big gap to fill.

ARTHUR REINKING

ART made his third letter of the year in track this year as he was a member of the 440 yard relay team that carried the Rose banner to victory in the relay meet. He graduates this year and his shoes will be hard to fill in the three sports he starred in.

HAUER KADEL HILL FITCH

GEORGE HAUER

HAUER is another man that with some more experience will be a sure point winner in most meets. He has three more years in which to make good and he will not fail in that respect. George is a weight man.

RICHARD KADEL

DICK is a weight man who deserves a world of credit for his showing this year. He is a senior and finishes his college career this spring.

FLOYD HILL

"SANDY" came to Rose with a reputation as a fast man, and he surely lived up to his reputation. He specializes in the 100 yard dash, and his best performance came in the DePauw meet when he covered the distance in 9.9 seconds. He has three more years to burn up the cinders for Rose.

HENRY FITCH

FITCH came to Rose with no track experience and before the year was over was one of the most dependable men on the squad. His events are the distance runs, his best performance coming in the two-mile run as he has made the distance in 10:47.1, which is the present school record.

DERRY DEAN SCHARF DAVY

JOHN DERRY

DERRY is a hurdler of no mean ability. He was well up in the scoring in spite of the fact that he did not take part in the last four meets because of a severely sprained ankle. In addition to being a hurdler, Derry was also the best broad-jumper on the squad. Jack has two more years and will be heard from a great deal.

MILO DEAN

DEAN is another speed demon that helped to win two cups at the Hoosier Relays. He was only a freshman in school but has had lots of track experience. He won't be back next year as he is to enter the Naval Academy in July. We're wishing him good luck in athletics there and feel sure he'll make good.

CARL SCHARF

SCHARF is a Sophomore distance man and although he did not make a letter he deserves a lot of credit for his splendid showing in the mile run this season. He will be a dependable man next year.

ANDREW DAVY

DAVY is a freshman with much promise as a hurdler. After Derry was injured, he carried Rose's colors in the hurdles and performed very well. He will make a name for himself in the next three years.

BAKER BARRETT MUNTZ REEVEE

PAUL BAKER

BAKER is another freshman that made good this year. He is another distance runner with lots of promise. He broke the two-mile record once this year and later saw a team-mate break his record. He will be a good man later on.

THEODORE BARRETT

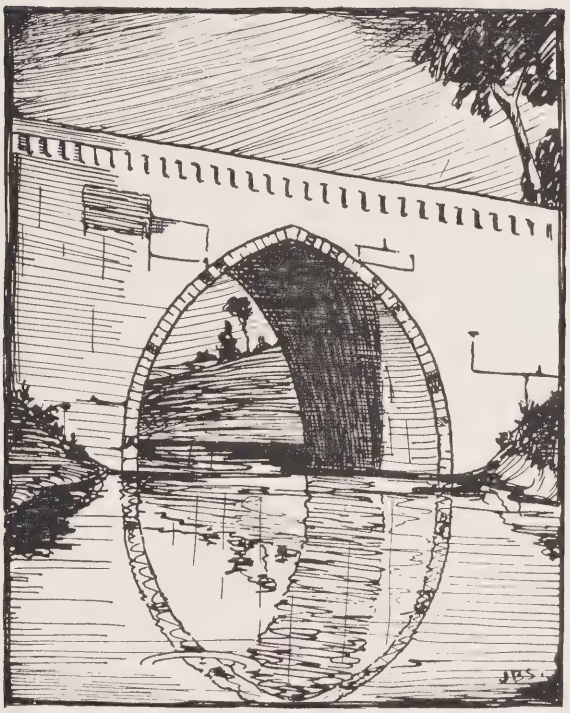
TED was White's rival for scoring honors and did not lose out until just at the end of the season. Barrett's specialties are the weight events and the high jump. He and White took turn about in winning the high jump, but Barrett reigned supreme in the weights. His best performance of the year came when he won first in the javelin at the Hoosier Relays, and established himself as the strongest little man in the State. He has another year.

CLARENCE MUNTZ

MUNTZ is a middle distance man that was hard to beat. His best race is the quarter-mile run, in which event he is joint holder of the school record. He tied the existing record in a triangular meet this year when he dashed the 440 in 52.4 seconds. He has another year to run for Rose.

ALLEN REEVES

ROSE suffered a misfortune when Reeves, the best bet in the distance runs, had the bad luck to sprain an ankle before the season had fairly started. As a freshman, Allen was one of the stars of the team, and he was expected to shine this season. Reeves will have two more years to run for Rose.



CIVIL ENGINEERING

ORGANIZATIONS AND ACTIVITIES

Standing: Sawyers, K. Alexander, Hauer, Derry. Seated: Goddard, Ferris, E. Kunz, R. Alexander.

Athletic Board

THE control of athletics at Rose is in the hands of an Athletic Board of eight, two representatives from each class. These members are elected at the beginning of the school year by their respective classes and hold office during the following nine months. The officers of the board are chosen by the board members.

The appointment of the four student athletic managers is made by the Athletic board. These managers are responsible for the care of grounds and equipment, and the finances of the various teams.

Probably the most important duty of the board is the awarding of honor letters and sweaters to the student managers and the players who have fulfilled the necessary requirements as set forth by the board.

Members: Seniors, Earl Kunz, Pres.; Robert Ferris; Juniors, James Goddard, Robert Alexander; Sophomores, John Derry, James Sawyers, Sec'y.; Freshmen, Kenneth Alexander, George Hauer.

Student Council

ALL business to be carried on between the student body and the faculty or Board of Managers, passes through the hands of the Student Council. Each class is represented by its president, and one representative from each of the other school organizations makes up the rest of the Student Council. The Student Council apportions the student fund, awards honor points, and has charge, financially, of all important school functions.

MEMBERS:

Top row: Pres., Edward Dunning, for the Technic.
Vice-Pres., Raymond Harris, Sophomore Class President.
Rec. Sec'y., Milo Dean, Freshman Class President.

Middle row: John Fairhurst, for the Y. M. C. A.
Harold York, Junior Class President.
Raymond Davis, for the Rifle Club.
Earl Kunz, for the Athletic Board.
Ralph Davy, President of the Senior Class.

Lower row: Ernest Johnson, for the Radio Club.
Guy Mahan, for the Rifle Club.
Financial Secretary, Clarence Muntz.
Edwin Booth, for the Camera Club.

Rose Honor Men

EXTRA-carricular activities at Rose are encouraged by the awarding of Honor Points by the Student Council for participation in such activities as have been specified in the by-laws of that body. By earning twenty of these coveted points in one year, or by accumulating fifty during four years, a student may be awarded a silver key, known as an Honor Key. Formerly this award was a bronze shield, but its form was changed last year.

Points are given to members of the Student Council, members of the different athletic teams, class officers, and members of the Technic staff and Modulus staff. The number of points given depends upon the position held, a man holding a responsible job in one of these organizations earning more points than one who holds a less responsible position.

The awards for the 1926-27 school year have not yet been announced. The keys will probably be distributed during the summer.

The Seniors and Juniors who are already Honor Men by having won their keys last year are as follows:

Edwin Booth	Edward Dunning	Donald Fenner
Fred Trautman	Arthur Reinking	James Goddard
Richard Brown	Robert Taggart	Robert Alexander
Claude Sweeney	Robert Wade	Raymond Davis

Camera Club

ROSE camera enthusiasts, under the able direction of Prof. John B. Peddle, have once more become one of the most active organizations on the campus since the reorganization of the Camera Club late last year. The original club was known as the Pyro Club, and flourished for several years at the old school, but had been inactive for the past few years.

It is the purpose of the club to increase the interest of the student body in the art of photography. This spring the club held a contest among its members, offering a prize for the best photograph of Deming Hall submitted by the members of the club. A more extensive program of this sort next year will increase the interest in the club.

Members:

Edwin Booth, Pres.
Robert Ferris, V.-pres.
Andrew Nehf, Sec'y-treas.
Carl Ehrenhardt, Supply-keeper
Max White
Guy Mahan
Leonard Montgomery
Roger Mace
Robert Alexander
Ernest Johnson
Richard Harris
Thomas Reed
Alfred Kasameyer
Eldridge Allen
John Rockwood
Richard Garmong
William Harris
Everett Siegelin
Arthur Keiser
Kenneth Alexander
William Hammerling
Othel Calhoon

Glee Club

ANOTHER club to be recently reorganized after some years of inactivity is the Glee Club. The club got away for a good start this year, nearly all of last year's members returning to form a strong nucleus for this year's organization. An increased allowance from the Student Fund gives the club a working financial basis.

The most important public appearance of the club was at the St. Pat's show, where it presented the most attractive number of the entire show. Members of the club were in demand to sing at various functions. The Glee Club quartette composed of Prof. Alfred T. Child, Richard Kadel, Joseph Hunter, and Robert O'Rear was very popular.

Members:

Robert O'Rear, Pres.
Roy Reece, V.-pres.
William King, Sec'y.-treas.
Prof. Alfred T. Child, Faculty Advisor
Morris Guggenheim
John Mendenhall
William Collins
Harold Corp
Morris Weasley
Charles Barbre
Richard Kadel
William Houston
Wayne Kehoe
Edmund Murphy
Emil Krockenberger
Clarence Muntz
Clyde Marsh
William Leake
Kenneth Metcalfe
Lowell Muehler

Radio Club

DUE to the foresight, and activity of the members of the Radio Club since its organization in 1923, the club scored an important coup when a broadcasting permit was recently awarded to the school broadcasting station. The club was originally organized to further the technical study of radio at close range, experimental equipment being set up for this purpose. As interest increased, the idea of establishing a broadcasting station spread through the student body and the faculty. Pressure was applied by the Radio Club and by interested backers of the school, and as a result a permit was obtained giving the Rose broadcasting station authority to broadcast under the call-letters WRPI. The station is in the hands of enthusiastic citizens of Terre Haute, and daily broadcasts a program from the studio in the Deming Hotel. A new building to house the broadcasting equipment is in the process of construction on the campus.

Officers: Ernest Johnson, Pres.; Guy Mahan, Vice-pres.; Herman Moench, Sec'y.-treac.; Theodore Cliff, Roger Mace, Advisory Board members.

Rifle Club

WITH the completion of the new 300-yard outdoor range this spring, interest in the Rifle Club was broadened and the club will undoubtedly enjoy greater activity next fall. The outdoor activities of the club were seriously curbed throughout all of last fall and this spring due to the inclement weather. The indoor range, however saw service all winter. The Fifth Corps Area Intercollegiate Indoor Rifle Match was fired by the Rose team on the indoor range. Several members of the Rifle Club were on the Rifle team and shot some high scores, John Harvey making the highest score of any man on the team.

The Club is affiliated with the National Rifle Association of America, making available for use by the club a number of small caliber rifles and targets.

Lt. Bruce C. Hill was the club advisor until his transfer in March.

Officers: Prof. John B. Peddle, Pres.; Guy Mahan, Vice-pres.; Lt. Bruce C. Hill, Sec'y.-treas.

Y. M. C. A. Cabinet

THE officers of the Y. M. C. A. Cabinet, the governing body of the organization, are as follows:

Top row:

John Fairhurst ..... President
Lee Akers ..... Sec'y.-treas.
Donald Fenner ..... Committee Chairman
Richard Brown ..... Social

Lower row:

Clarence Muntz ..... Meetings
Harold York ..... New Student Committee
Lowell Muehler ..... Vice-President

The Rose Y. M C. A.

THE Rose Poly Young Men's Christian Association was established in 1892. At first the membership in the association was limited, but as interest grew, the membership increased until it included every man in school. With its increased membership, the Y. began to take a more and more important place in the affairs of the school, until it became one of the most active and influential student organizations on the campus.

The very size of the organization at length began to make it unwieldly, and this led to a change in the method of governing the body, and in the system of membership in the association. The administrative board known as the Y. M. C. A. Cabinet is the executive body of the organization. This cabinet consists of a president, a vice-president, a secretary-treasurer and his assistant, and the chairman of the various standing committees. The Cabinet is elected by the members of the association. Besides the Cabinet, there is an advisory board consisting of six members of the faculty.

The new system of membership makes every man in school an associate member of the organization, with the privilege of becoming a member by signing a Y. pledge card. This associate membership allows each man the use of the Y. Room, the large lounging room, furnished by the Y. M. C. A., and containing a book store and a canteen.

The work of the Y. M. C. A. is varied. The Y. Mixer, held immediately after the opening of school in the fall, is of great benefit to the freshmen. Another phase of work by the Y. is the location of employment and rooms for students.

Open meetings have been held at irregular intervals throughout the school year, where topics of immediate interest to the student body are brought up and threshed out. These discussion meetings are open to the entire student body and if anyone has anything to say on the matter up for discussion, he may place his views before the students first-hand.

The Masonic—DeMolay Club

ONE of the most active organizations on the campus is the Masonic-DeMolay club. The present club was reorganized in 1926, having previously been the Masonic Club, which was organized in 1923. The club, as originally founded, admitted only Masons into its membership. However, since its reorganization, as its name implies, both Masons and members of DeMolay are admitted to membership.

At the first business meeting held this year, Guy Mahan was elected president of the club. Business and social meetings were held at irregular intervals during the school year, and plans have been made to make the club even more active next year.

Acknowledgment

THE Modulus staff wishes to express its thanks to Prof. John B. Peddle for his kind assistance in obtaining many of the photographs used in this book.

The Rose Technic

THE Rose Technic was established in the spring of 1891 as a private student enterprise, and was, as it is now, a monthly magazine devoted to articles of scientific interest, as well as school news and alumni notes. The magazine was a success from the start, thanks to the efforts of Arnold Lawman, '92, the original editor.

During the last twenty-eight years, the magazine has been under the control of the Student Council, and the staff is chosen from the student body each spring by the retiring staff, upon recommendations by the faculty committee. The Rose Technic is one of the original members of the Engineering College Magazine Association.

At present the Rose Technic is perhaps the most important means of contact between the Rose alumnus and the Rose student. It is the connecting link between the old school and the new, and its importance is not to be overlooked.

The Y. M. C. A. Handbook

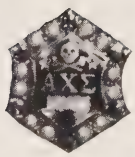
EVERY fall, for the past quarter of a century, at the opening of school, the Y. M. C. A. Handbook has been published. The Handbook is a leather-bound, loose leaf book of convenient pocket size, and contains much valuable information, especially to the incoming freshmen.

The Handbook contains a condensed history of the school and its founder, and of Rose traditions, all of which is of interest to the new student. The constitution and by-laws of the Student Council, and of the Inter-fraternity council, are also set forth in the Handbook. Another valuable feature is the student directory containing the names and addresses of every student, and the course he is pursuing at the school. Handy sets of tables and formulas have also been compiled, which prove very useful. Additional paper may be inserted in the cover, making the Handbook useful for the keeping of notes.

The Handbook Committee:

Lowel Muehler ..... Editor
John Fairhurst ..... Asst' Editor
Donald Fenner ..... Advertising
Ralph Bailey ..... Ass't. Advertising

SOCIETIES



Iota of Alpha Chi Sigma

ALPHA Chi Sigma fraternity was founded at the University of Wisconsin December 11, 1902, by J. Howard Mathews, Joseph G. Hotley, Frank J. Peters, Alfred Kundert, Harold E. Eggers, J. C. Silverthorn, E. G. Mattke, R. T. Conger. Its membership is drawn from students of chemistry who intend to make some phase of chemistry their life work.

Iota chapter was founded at Rose Pilytechnic Institute in 1909. There are now forty active chapters.

The fraternity flower is the dark red carnation, the colors are chrome yellow and Prussian blue.

Member in the Faculty: Dr. John White.

Members

Gamma Gamma of Alpha Tau Omega

ALPHA Tau Omega fraternity was founded at Richmond, Virginia, September 11, 1865, by Otis Allen Glazebrook, Alfred Marshall, and Erskine Mayo Ross. The fraternity was incorporated at Baltimore City January 10, 1879.

Indiana Gamma Gamma chapter was founded at Rose Polytechnic Institute in 1893. Alpha Tau Omega now has eighty-nine active chapters.

The colors are sky-blue and old gold, and the flower is the white tea rose.

Member in the Faculty: Prof. Carl Wischmeyer.

Indiana Gamma of Theta Kappa Nu

THETA Kappa Nu fraternity was founded at Springfield, Mo., in 1924, by representatives of eleven local fraternities from various states. The founders were W. S. Anderson, O. R. McAbee, D. F. Lybarger and J. H. Krenmyer. From the eleven original chapters the fraternity has increased to its present enrollment of forty-one chapters.

Indiana Gamma was installed at Rose Polytechnic Institute February 17, 1925, after being a local on the campus, the P. I. E. S. for twenty-five years.

The colors of the fraternity are crimson, saber and onyx, and the flower is the wild white rose.

Kappa of Theta Xi

THETA Xi fraternity was founded at Renssalaer Polytechnic Institute, April 29, 1864, by P. H. Fox, R. G. Packard, C. C. Waite, G. B. Brainerd, Samuel Buel, Jr., H. H. Farnum, T. C. Raymond, N. H. Starbuck. The fraternity confined its members to students of engineering and applied science until 1925, when it became a general social fraternity.

Kappa chapter was installed at Rose Polytechnic Institute in 1907. Theta Xi now has twenty-nine active chapters.

The fraternity colors are light blue and white.

E^n Fraternity

E^n is a local fraternity organized at Rose in 1922 by several of the leading men of the class of '22, and Mr. Frank Stone of the Faculty. The purpose of the organization is to mark in a fitting manner men who have conferred honor upon their Alma by a high grade of scholarship. Student membership is confined to members of the Junior and Senior classes.

THE SCHOOL DECORATED FOR THE PROM

The Junior Prom

THE one big social event of the year to which Rose looks forward is the Junior Prom. For weeks before the big event there is much consultation and planning between the various committees. There is the orchestra to be secured, dcorations to be planned, and a hundred minor details to be attended to which are all to go together in making the big night a success.

For the second year, Jean Goldkette's Victor Recording Orchestra played for the Prom. The gym, where the Prom was held, was beautifully decorated, an Egyptian motif being used. One of the decorative features of the Prom was the long runway, which was completely enclosed with rose and white streamers and converted into a tropical garden by great numbers of palms. The fraternities added to the attractiveness of the building, each tastefully decorating one of the rooms in the front part of the building to serve as a rest room.

The Prom was a success in every way, and much credit is due the Prom committee and the Junior class for their efforts.

Committee

ED DUNNING
Chairman of Parade
Committee

RALPH DAVY
Chairman of Dance
Committee

That Saint Pat's Celebration

IF Saint Pat had arrived a day or two before scheduled time, he would have been struck by the unusual activity around the back end of the building. "Well, well," he probably would have mused, "Even the chemists are working—and as I breathe isn't that a Senior Civil using that saw?" However more and greater wonders would have greeted the eyes of the saint if he had looked into Prof. Richmond's sawdust emporium, for the old woodshop was seeing more service in one day than it had seen all term. It was reported that Al Brown was even seen working —sharpening a saw, but it is believed that this is merely an idle rumor and few take any stock in it.

After almost a whole week of strenuous labor, the slat frameworks began to take form under persuation of hammer and saw, and each eventually blossomed forth into a stork, airplane, alligator, orinthio-whoopdedoodlum, or what have you, that in some cases even bore a resemblance to the original, especially if it had a label on it telling what it was.

"It's a boat."

"Naw, it's a bridge."

So it probably was a flashlight or a horse.

The thought of all this work make a person tired, hence the scene shifts. It is now Thursday, March 17.

When?—About 1:30 P. M.

Where?—Grand Theater.

Why?—What of it, and besides, who cares. . . .

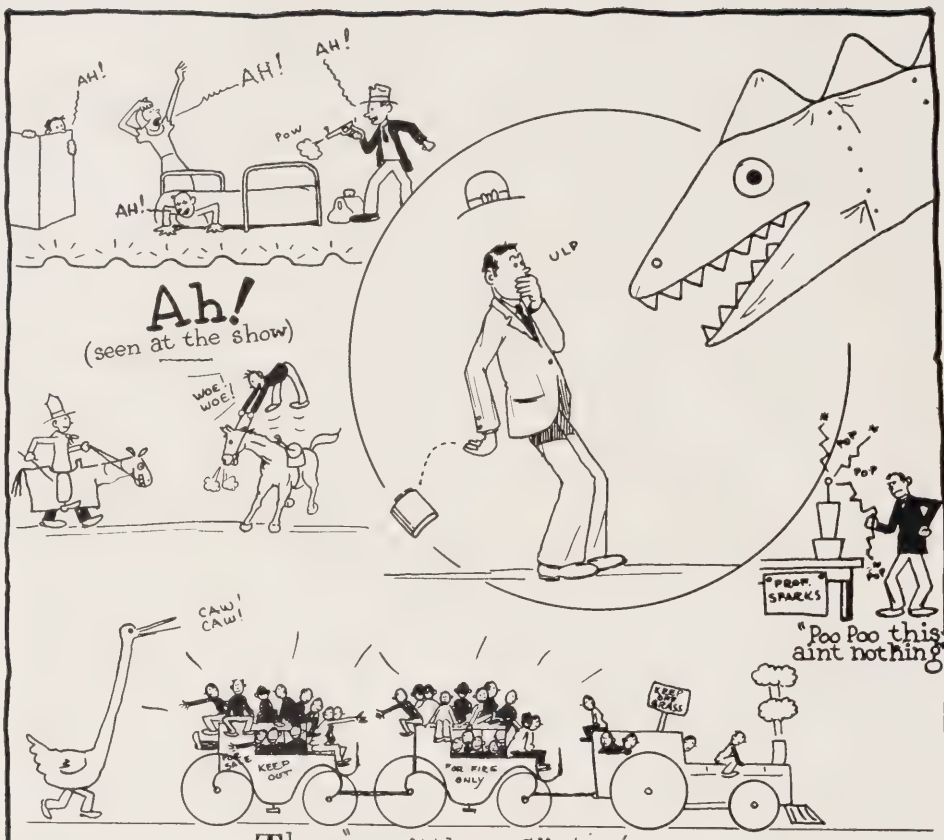
The curtain rises, and amid a thunderour applause, Ray Davis steps from the wings, ducks from force of habit, and when the hisses have subsided, announces the business coming before the assemblage for the afternoon. He then makes a graceful exit, being careful not to turn his back to the audience, and now the annual Lost Creek Follies is on. Let the orchestra play soft music.

The first number on the program is an educational sketch called "An Engineer At Work!" This act is instructive as well as entertaining. Mr. Claude Sweeney, impersonating an engineer, shows the proper method of proceedure in putting over a piece of work in the face of awful odds. Mr. Hillis plays the part of the odds, accompanied by Mr. Richard Brown on the banjo. Acting, as it is done in this sketch, is rarely seen in the highest class of stage productions, so we are indeed fortunate in witnessing this headliner.

The second act is a sparkling bit of light comedy in which Prof. Guy Mahan and Doctor Bill Hammerling demonstrate just what to do if you ever get a bolt of lightening cornered in your vest pocket. This sketch has several educational features, and is enlightening to say the least. Between sparks, Marion Houston pulls some gags that Messers. Mahan and Hammerling have been saving up for the faculty. Static was bad during this act.

What colleges boast of glee clubs? Chorus—"No colleges boast of their glee clubs!"

At any rate the glee club finally got on the stage, and attempted to set an example for the birds that sing in the spring, tra, la. Among the chief offenders were Prof. Child and Joe Hunter. Joe is a freshman and may not know any better. After taking up valuable time that actors could be using, the glee club finally beat it, and every one applauded when the curtain at last ended the misery.



The "DeWittless Clinton" was a popular means of transportation.

"Isn't that music divine?"
"What did you say?"
"I said, isn't that music divine?"
"I cant hear you. That da-mn orchestra is making too much noise."

(at the dance)

"Come on, lets go"
"Cant. We got a flat tire."

St. Pat impressions

(bart smith)

The next offender was Carl Ploch who arrived on the scene, and after talking up his famous stomach bitters, succeeds in selling a bottle in the audience. (Curtain)

Following this oratory came a sad little melodrama by a company just back from a tour of the east. East Wabash Avenue. The play, entitled "Ah," was simply ah-ful, and the best thing about the performance was its brevity.

After another siege of King-Kadel banjo-beating, accompanied by Hubert Swartz on the *harpe francaise*—ask Prof. Faurot—the show came to an end. (Applause)

A rumor that Rosie was in danger sent nearly every one from the theater to the protection of the school mascot, only to find that it was a false alarm.

The next event of interest was the parade. Early in the evening a conglomeration of hacks, monsters, birds, and so forth, began to congregate at Heminway Park. Here, under the direction of Ed Dunning the procession began to take form, and finally got under way. Proceeding up Seventh Street, the parade turned West at Wabash and the wondering populace had a chance to gaze at the assembled freaks and guess what they represented. The parade was eggs-ellent from every standpoint.

With the show and the parade out of the way every one dashed off home in time to do a quick-change act and wait for the girl-friend to get ready, then get away to the Trianon where the big shin-dig was in process. The dance was a huge success, thanks to the efforts of Ralph Davy, and the black-bottom held sway until long after March 17 had passed out at midnight, and Saint Patrick had hurried back to Ireland for another year.

The Sophs were wash-outs in the tug-o-war —

-and in the canoe-tip (left)

All (push) balled up. (right)

The Sophs capture the pipe. (below)

The Class Scrap

ON the first day of school it is customary for a reception committee, consisting of the Sophomores, Juniors and Senior classes, to welcome the incoming freshmen in a manner intended to bring them into immediate contact with the students, or shall we say fellows, who will boss them around for the next few months.

The Sophomore class is the reception committee proper, the upper classmen giving them moral support.

Early in the day, directly after registration, the rhynies gathered in the assembly room, and at the suggestion of the helpful Juniors, took up a collection to buy ropes and chains, and to hire a truck. Then, having elected Milo Dean and George Hauer as fight captains, they made themselves scarce.

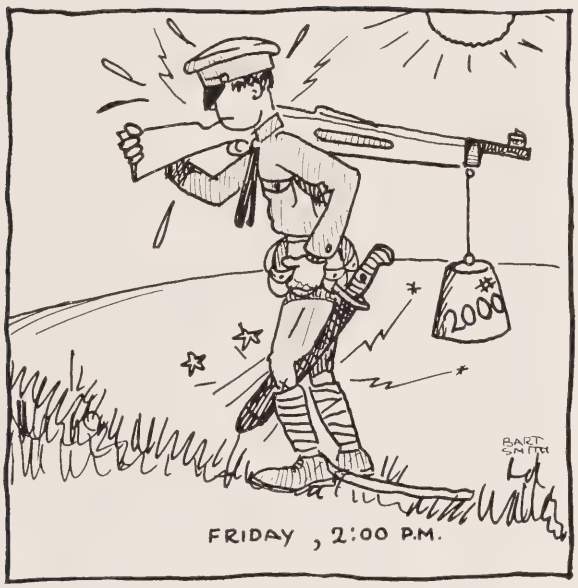
Meanwhile, the wily sophs had met and organized parties to capture any unwary freshmen that might happen to remain in town for the afternoon.

In the course of the afternoon's hunt quite a haul of freshmen was made and these were sprinkled over the adjoining counties in order to keep them out of the scrap.

The sophomores assembled in Scrap Hollow around the flag-pole about 7:30, and final plans for defense were laid out. A large crowd of spectators braved the threatening skies to witness the tieup, making a wire fence necessary around the field of battle to keep the spectators out of the melee.

After a short wait, a thundering herd of freshmen swarmed over the hill and into the arena, and the battle was on. Rains throughout the afternoon had made the field of battle a veritable quagmire in a short time. Numbers began to tell, and as freshmen who had been hauled away during the afternoon began to arrive, there was no doubt as to who would be tied up. In three-quarters of an hour, a muddy freshman climbed the pole and pulled down the colors. A little later the last soph was roped up and the class of '29 was off for its second truck ride.

Most of the Sophs succeeded in getting back to school in time for the interclass tug-of-war, push-ball game, canoe-tipping tilt and pipe-rush held the following Saturday afternoon, but the freshmen captured every event, in spite of their efforts.



MILITARY

Cadet Officers of Company A

Captain:—Russell C. Fisbeck.

First Lieutenants:—Lowell E. Muehler, Guy S. Mahan.

First Sergeant:—James E. Goddard.

Staff Sergeants:—Roy D. Reece, Andrew J. Nehf.

Sergeants:—J. Gordon Lee, Claude C. Cash.

Corporals:—Herman A. Moench, Morris T. Shattuck, W. Frank Crawford, Wayne E. Dodson, John A. Derry.

Cadet Officers of Company B

Captain:—C. Lee Akers.

First Lieutenants:—W. Robert Ferris, Davis U. Hoffman.

Second Lieutenant:—Fred L. Trautman.

First Sergeant:—John T. Harvey.

Staff Sergeants:—John I. Mendenhall, Alexander Babillis.

Sergeants:—G. Lee Berry, J. Rex Adams.

Corporals:—Volney W. Hutchinson, James R. Sawyers, Clarence L. Muntz, A. Wayne Dicks, Raymond P. Harris,

Cadet Officers of Company C

Captain:—Arthur F. Reinking.

First Lieutenants:—Fred P. Mischler, Othel S. Calhoon.

Second Lieutenant:—Richard C. Brown.

First Sergeant:—Kenneth Metcalfe.

Staff Sergeants:—George J. Mason, James F. Payne.

Sergeants:—Benjamin H. Van Vactor, Morris Guggenheim.

Corporals:—James M. Lawyer, Carl W. Scharf, Harold F. Schatz, Fred O. Andrews, Ralph C. Bailey.

The Rifle Team

THE Rifle Team, representing Rose in the Fifth Corps Area Intercollegiate Indoor Rifle Match, scored seventh among the twelve competing teams. The team improved greatly over its last year's showing when it placed ninth. The individual scores of the members of the team are given below:

John Harvey	770
Norman Traub	762
Fred Mischler	753
Edgar White	749
Roger Mace	746
Guy Mahan	743
Richard Kadel	741
Kenneth Metcalfe	736
John Mendenhall	731
Frank Crawford	720
Lee Akers	720
Roy Reece	704
Baird West	685
Galen Clark	681
Charles Barbre	656

The team was coached by Warrent Officer Sylvester Kearns.

Cadet Capt. C. Lee Akers
Lt. Richardson Selee

The R. O. T. C. Demonstration

THE annual inspection and review of the White Elephant unit took place on May 20. First came the inspection of the unit by inspecting officer Col. Harris. Following the inspection came the review. The unit passed in review before Col. Harris, Lt. Bessell, Lt. Selee, and officers of the National Guard, to the martial music of the Gerstmeyer Tech band. This year is the first time that a review has been held and it was perhaps the most impressive showing that the Rose unit has made.

Following the review, the demonstration problem was held. While the battalion was moving into position, a team, consisting of the officers from the Senior class, put up a section of double apron wire in record time. A team consisting of Cadet Sgts. Adams and Guggenheim broke the previous unit record for dismantling and assembling a machine-gun while blind-folded, and earned the right to fire the weapon in the demonstration.

The demonstration began as an attack by the battalion, beginning at the eastern extremity of the Institute grounds. An artillary barrage was simulated by mines which were fired as the attack started. The battalion swept across the campus, and swerving to the right, built a pontoon bridge across the lake, which represented a canal, under the cover of heavy rifle fire. Blank ammunition was used throughout the problem, making the attack very realistic. A large crowd witnessed the demonstration.

Col. Harris made the statement that the Rose unit was the best engineering unit that he had inspected.

The cup offered to the best drilled company was won by Company A, after the competitive drill the following Friday. At the same time, Cadet Major Kadel was presented the saber awarded by the local National Guard unit to the best officer in the R. O. T. C. unit.

HUMOR

Humor

Prof.: "Look here, young man are you cribbing?"

Stude.: "Oh, no, sir I am just verifying these answers."

For Those Themes

Just write your theme in milk and condense it.

Deadly

Geraldine: "I see where a Mexican recently died, at the age of 113, who had smoked cigarettes all his life."

Gwendolyn: "Yeah, they'll get a person sooner or later."

A Sob Story

It was a drab, bleak day in December. A chilling, biting, wind sighed mournfully through the leafless elms, and whistled around the corners and under the eves of the magnificent Fitz-Carlton mansion. A few flakes of snow, changing to rain as they fell made the day more dismal.

Reginald Fitz-Carlton paced up and down in his study. The ruddy glow from the cheerful blaze crackling in the open fireplace, lighted up the noble countenance of this scion of wealth. He was not happy; his brow was knit with a look of anguish. Suddenly he halted before the spacious window. His massive frame shook with a stifled sob.

"To think," he murmured, "To th-think of that poor old clothes-line out there without even a shirt on."

The next song on the program will "The Lost Chord, or the Great Lumberyard Mystery." Quick, Watson, The needle.

Stude: "Ain't that elephant a hell of a big animal?"
Prof. Settles: "How many times must I tell you not to say 'ain't'?"

"That settles it," remarked the sugar-bowl as the egg was dropped into the coffee.

An American Tragedy

It looked like bad news for Blank. The discipline committee had him up for imbibing.

They had just about proven the above statement when the stewed—excuse me, I mean stude—asked that he be allowed to call in a frosh as witness.

"What's his name?" inquired the comm.

"Clift," replied Blank.

"Don't try to bluff us, now," said same comm. "Show him in."

The frosh came in.

Comm.: "Did you see Blank come in last night?"

Frosh: "Yes."

Comm.: "Was he——?"

Frosh: "No, he was not."

Comm.: "Did he say anything to you?"

Frosh: "Yes, he asked, or rather told me to get him up early."

Comm.: "Why did he want to get early?"

Frosh: "He said that he was to be the Queen of the May."

Moral: The Frosh ate standing up for three weeks. Blank went to Normal the next semester.

Sandy: "What did I make in Analit?"

Doc.: "Zero, but that's nothing for you."

The Athletic Board has a new way of making money. They schedule baseball games for Rose and sell the schedule to the weather man.

Definitions:

Elliptic—A kind of fit.

Armature—One not rated as a professional.

Nor Pool Shark

First sailor: "There's a shark following the boat."

Second ditto: "He's hungry. Throw him that deck of cards."

First same: "He's no card shark."

SWAT THAT FLY

We learned all about fly-wheels in Mach. Des., but they can't fool me, flies don't have wheels.

P.S. And balloons don't have tires, either.

John: "Why is your face so red, little girl?"

Laura: "Cause."

John: "Cause why?"

Laura: "Cosmetics."

"Look, papa, Abbie's cold is cured and we still have a box of cough drops."

"Ooh, vot extravagance, tell Herman to go out and get his feet wet."

AT THE ZOO

"Look at the bamboo!"

"Don't be silly. That ain't no bamboo, that's a boomerang."

Martin L.: "When do girls talk the least?"

Martin V.: "On the shortest day of the year, of course."
